

THE BASEBALL SEASON OPEN

YALE'S NINE LOSES TO NEW-YORK IN THE FIRST GAME OF THE YEAR.

DEFEATED BY 11 TO 3 IN AN EXHIBITION MATCH AT THE POLO GROUNDS—A SMALL ATTENDANCE AND POOR PLAY.

There was a small attendance at the Polo Grounds yesterday afternoon to witness an exhibition game of baseball between the Yale team and the New-York professionals. The main interest in the game was in the play of the Yale boys, the people being anxious to estimate their strength for the coming intercollegiate championship. Wallace started in to pitch for Yale, but he had poor control and less speed, and the professionals scored eight runs in the opening inning. Hecker and Feary were the other Yale pitchers, and they did good work. Doherty, Sullivan and Clark did the pitching for the local team. The score:

Yale	0	0	0	0	2	0	1	0	3
New-York	8	0	0	0	1	1	0	1	1
Batteries—Yale, 11; New-York, 12.

Umpire—Hornung.									

PRINCETON'S FIRST GAME OF THE SEASON.

Elizabeth, April 10 (Special).—The Princeton University baseball team played its first game of the season here this afternoon, its opponents being the New-York State League. The game was rather one-sided, the collegians winning easily by a score of 14 to 4. There was an exciting scene in the second inning, when the angry collegians and a lot of their friends, incensed by the alleged unfair decisions of the umpire, gathered about him and demanded that he be taken out of the game. It looked serious for the umpire for a few minutes. Manager Toboldt, however, settled the trouble by retiring the umpire. About fifteen hundred people witnessed the game. The score by innings was:

Elizabeth	0	0	1	0	1	0	5	0	4
Princeton	1	0	0	0	2	0	0	0	14

FORDHAM, 14; NEW-YORK UNIVERSITY, 9.

Fordham and New-York University met at Fordham yesterday in a game which was notable for the heavy hitting of Fordham and the close fielding of both teams. The features of the game were the heavy batting of Tierney, Kiernan and Hayes for Fordham, and Foster for New-York University, and the catches by Tierney, Barry, Reilly and Northrup. The score:

FOR EVERY PICKER.

Champion Michael Advises Use of Paine's Celery Compound.

James Michael is the champion long distance bicyclist of the world.

He recommends all wheelmen to take Paine's celery compound.

His experience is that of thousands of others. With the opening of the bicycle season many a young person and hundreds of older people who have suffered from debility or wasting diseases for a long time until they had begun to think their troubles had become chronic, as nothing gave them relief, would turn to bicycling for relief. But this splendid exercise, like any other, requires strength to undertake. The blood is out of order, the nerves are deranged, and nature's joy for both is denied.

All such persons will find to their immense joy that Paine's celery compound, taken now, will make them well.

Paine's celery compound works wonders in the spring. If you have labored under the load of repeated headaches, neuralgia, pains and days of nervous debility, now is your best time to get well.

Michael is to-day the most phenomenal rider in professional ranks. As far back as 1894 he was undisputed champion of Great Britain, and in the following year he went to France and scored 25 straight wins against the picked riders of Europe. He has defeated such famous men

as Jacquelin, Gougeliz, Huret, Rivierre, Bonhours, Bourillon and Barden of England, and Leyten, the Belgian champion.

He has just returned from Europe and is now ready to join the racing men on the Pacific coast, despite the large amount of work he has gone through during the past months.

Michael has made cycling a careful study and is in a position to give excellent advice not only to racing men, but to wheelmen and athletes in general. In reference to his own methods the following letter will interest everybody:

Boston, Mass., Feb. 21, 1897.

After the exertion of my record rides in the South last winter, during which I lost somewhat in weight, on account of the unaccustomed climate, I was advised to use Paine's celery compound. I am pleased to say that it gave such satisfaction that I was impelled to use it again to brace up from the effects of the two unusually rough ocean trips that I have taken during the past month. I believe that wheelmen who have to contend with the hardships of "drift chasing" will find Paine's celery compound of assistance in keeping up their physical tone.

JIMMY MICHAEL.

Every one needs to take a spring remedy to purify the blood, arouse the circulation and counteract the debilitating effect of months of confining work, worry and excitement.

The more intelligent portion of every community are the ones who best recommend Paine's celery compound. They have looked into this great remedy, followed its remarkable achievements in the case of friends, neighbors and relatives, and know just what to expect from its use. It is a brain strengthener and restorer and an ideal invigorator for a run-down system.

THE LAKEWOOD HUNT.

MANY SPECTATORS WITNESS THE CROSS-COUNTRY CHASE.

Lakewood, N. J., April 10 (Special).—The Lakewood coterie of cross-country riders performed for the benefit of the open Ocean County Hounds being arranged for the benefit of spectators, who were treated to some brilliant work over the timber. The meet was on the lawn of the Laurel House, and every point of vantage was filled by visitors and guests long before the hour set for the start. The course, including several farms, was the most beautiful in the county, and the numerous carriages waiting to follow the chase by the neighboring roads. Kodak lenses were in evidence by the score, and many an impression of the glittering spectacle was snapped. The presence of the pack in their trappy van, with its stylish cobs and pink-outfitted attendants, instead of moving around the hunters, was a novel sight. The scene around the start, however, from the scene an element of excitement that has heretofore been prominent at the meets, and which is more in accordance with hunt etiquette. It saves the hounds considerable fatigue, but the picturesque effect of the gathering is lost.

Mrs. George J. Gould, wife of the master, was among the first on the scene, driving a sweeping coupé, and occupying the other seat, James Converse, the acting master, was mounted on his well-known and well-tried hunter, Atlantic; James A. Hart, of the Richmond County Hounds, rode the much-admired Richmond; W. C. Marrow, of the Chevy Chase Hounds, was out for the first time this year with his Lakewood pack. Others in the saddle were D. H. Lloyd, on Penn; E. H. Carle, on Towle; Charles Dwyer, on the Duke; Huntsman Dwyer, on Lord Lyall; Willie Dwyer, the first whip, on Duchess; Cunningham, the second whip, on Lady Lindley, and Melton, a third whip, on Lord Lyall. The hunt was mounted on the first of the season, and the hunt was a most successful one, and the hunt was a most successful one, and the hunt was a most successful one.

JASPER LYNCH'S CUP.

HE WINS "THE LAKEWOOD TIMES AND JOURNAL" TROPHY.

Lakewood, N. J., April 10 (Special).—Jasper Lynch, Lakewood's crack golfer, this afternoon added another to the many trophies he has won on the links. "The Lakewood Times and Journal" offered a handsome silver cup for weekly competition on the course of the golf club, the conclusion of the series leaving Jasper Lynch, Miss Alice Strong, Beverly Ward, Jr., Ernest Lloyd, James Converse and Robert Ward Kerr on equal terms for its final possession. The deciding contest was postponed till this afternoon, when all but Miss Strong and Mr. Ward were on hand to compete. Lynch was placed at scratch, Kerr received four strokes, Converse six, Ward five, Miss Strong twenty-five, and Lloyd eighteen. Both weather and turf were most favorable for the battle, but no low scores were turned in, although Lynch started off by making the first hole in two by a fine drive almost dead to the hole and an easy putt. It will be recalled that Lloyd won the trophy on two occasions, but on account of a breach of the rules through ignorance was disqualified and the cup given to Kerr, who had the next best score. Lloyd again exhibited much improvement over his previous form, but was unfortunately put in a regular habit of body are blessings also secured by the use of this celebrated restorative of health, which imparts a degree of vigor to the body which is his best guarantee of safety from malarial epidemics. Nerve weakness and over-tension are relieved by it, and it improves both appetite and sleep.
